

CONTENTS

PART 1

MUHAMMET CIHAT DAĞLI, MÜMÜN CAN	
On the integral of products of higher-order Bernoulli and Euler polynomials	7
LOIČ GRENIÉ, GIUSEPPE MOLTENI	
Explicit versions of the prime ideal theorem for Dedekind zeta functions under GRH, II	21
SHANE CHERN	
Remarks on the distribution of the primitive roots of a prime	39
NURDAGÜL ANBAR, PETER BEELEN	
A note on a tower by Bassa, Garcia and Stichtenoth	47
YUTA SUZUKI	
A remark on the conditional estimate for the sum of a prime and a square	61
KARIN HALUPCZOK	
A Bombieri–Vinogradov Theorem with products of Gaussian primes as moduli	77
HUMIO ICHIMURA	
Note on the class number of the p th cyclotomic field, III	93
SANDRO BETTIN	
The first moment of twisted Hecke L -functions with unbounded shifts	105
ASIF ZAMAN	
Bounding the least prime ideal in the Chebotarev Density Theorem	115
