

CONTENTS

PART 1

PAWEŁ DOMAŃSKI, WITOLD WNUK	
On the work of Lech Drewnowski	7
ANDREAS DEFANT, PABLO SEVILLA-PERIS	
The Bohnenblust–Hille cycle of ideas from a modern point of view	55
HANS WEBER	
Decomposition of measures and modular functions	129
IWO LABUDA	
On functions that are <i>BDS</i> -integrable over convexly bounded vector measures	151
MAREK BALCERZAK, KAZIMIERZ MUSIAŁ	
A convergence theorem for the Birkhoff integral	161
BENEDETTO BONGIORNO, LUISA DI PIAZZA, KAZIMIERZ MUSIAŁ	
Differentiation of an additive interval measure with values in a conjugate Banach space	169
PAOLA CAVALIERE, PAOLO DE LUCIA, ANNA DE SIMONE	
On the absolute continuity of additive and non-additive functions	181
MARIAN NOWAK	
Mackey topologies and compactness in spaces of vector measures	191
JERZY GRZYBOWSKI, RYSZARD URBAŃSKI	
Dual space of the Minkowski–Rådström–Hörmander space over \mathbb{R}^2	199

PART 2

PRZEMYSŁAW WOJTASZCZYK	
On left democracy function	207

FRANCISCO L. HERNÁNDEZ, EVGUENI M. SEMENOV, PEDRO TRADACETE	
Rearrangement invariant spaces with Kato property	215
GUILLERMO P. CURBERA, LUIS RODRÍGUEZ-PIAZZA	
A Banach function space X for which all operators from ℓ^p to X are compact	233
ENRIQUE A. SÁNCHEZ PÉREZ, DIRK WERNER	
Slice continuity for operators and the Daugavet property for bilinear maps	251
MIECZYŚLAW MASTYŁO, ENRIQUE A. SÁNCHEZ-PÉREZ	
Banach lattice sums with hereditary Fatou properties	271
MARCOS J. GONZÁLEZ, MAREK WÓJTOWICZ	
A generalization of Drewnowski's result on the Cantor-Bernstein type theorem for a class of nonseparable Banach spaces	283
ANNA KAMIŃSKA, PEI-KEE LIN	
Banach envelopes of p -Banach lattices, $0 < p < 1$, and Cesàro spaces .	297
ANGELA A. ALBANESE, JOSÉ BONET, WERNER J. RICKER	
Uniform mean ergodicity of C_0 -semigroups in a class of Fréchet spaces	307
WOLFGANG M. RUESS	
Locally convex spaces not containing l^1	351
LOTHAR KOMP, JOHANN BOOS	
Hahn spaces in Fréchet spaces and applications to real sequence spaces	359
J.C. FERRANDO, JERZY KAKOL, STEPHEN A. SAXON	
The dual of the locally convex space $C_p(X)$	389
TEPPER GILL, ALEKS KIRTADZE, GOGI PANTSULAIA, ANATOLIJ PLICHKO	
Existence and uniqueness of translation invariant measures in separable Banach spaces	401
