

CONTENTS

PART 1

LIUYING WU	
On a system of Diophantine equations with prime numbers	7
PATRICK LETENDRE	
Relations in the set of divisors of an integer n	23
AMOL SASANE	
Maximal ideal space of some Banach algebras of Dirichlet series	45
XHEVAT Z. KRASNIQI	
Pointwise seminorm approximation via threeharmonic Poisson integrals	57
ABBAS MAAREFPARVAR	
On Pólya groups of some non-Galois number fields	71
YURI BILU, DIEGO MARQUES, CARLOS GUSTAVO MOREIRA	
Values of generalized Liouville power series at algebraic numbers	95
DAN WANG	
The coefficients of L -function of degree seven in large arithmetic progressions	111
ANUBHAV SHARMA, AYYADURAI SANKARANARAYANAN	
General divisor problems pertaining to the Fourier coefficients of the Hecke L -function	125
